

AGN. NO. \_\_\_\_\_

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

JUNE 3, 2003

In April and May of this year, inspectors with the United States Environmental Protection Agency found insufficient erosion and sediment controls at developments on both sides of Plum Canyon Road in unincorporated Los Angeles County. This action was in addition to the regional water quality board issuing four violation notices to Shapell Monteverde Partnerships. The failure to adequately control this type of erosion is one of the major causes of water pollution in the Los Angeles County.

**I, THEREFORE, MOVE** that the Board of Supervisors direct the Directors of the Department of Public Works and the Regional Planning Commission to report back within thirty days (30) on how protections can be enacted at the developments in question under the jurisdiction of the County that will protect our valuable water resources in Los Angeles County.
